EXECUTIVE & STRATEGIC DOSSIER

The Cultural Digital Travel Passport Powered by the Solana Blockchain

MEETO ($MEETO) was created to revolutionize the international cultural tourism industry by leveraging the highest-performing Web3 technologies. While global tourism represents a multi-trillion dollar sector, today's traveler experience remains fragmented across disparate apps, overpriced low-quality audio guides, and zero tangible rewards for exploring historical heritage.

With MEETO, exploration transforms into a verified on-chain gamified journey: travelers visit ancient landmarks, validate physical presence via **GPS Proof-of-Visit**, listen to immersive voice guides, and collect unique historical stamps in their digital passport. Simultaneously, the ecosystem delivers immediate discounts on essential travel utilities, funneling commerce into an open-market buyback model.

$MEETO COIN: ARCHITECTURE, CONTRACTS & TOKENOMICS

SOLANA SPL TOKEN

The **$MEETO** coin serves as the economic engine and governance backbone of the ecosystem. Engineered on Solana's SPL standard, it leverages sub-second block times and sub-cent fees, allowing seamless micro-rewards for physical monument visits. Unlike inflationary tokens, $MEETO features a strictly capped total supply of **1,000,000,000 (1 Billion)** tokens with permanently revoked mint authority.

WEBAPP V2.5 ATTIVA

The primary strength of **$MEETO** is real execution: the WebApp is not a mockup or a theoretical pitch, but a mature, high-performance platform. Travelers enjoy a fluid interactive map rendering tens of historical landmarks without UI thrashing, an integrated voice engine, and a cryptographic passport turning cultural exploration into an interactive adventure.

1. GPS Map & 30+ Verified Landmarks

Detailed coverage across Italy: Rome (Colosseum, Pantheon, Trevi), Florence (Brunelleschi Dome, Uffizi), Venice (St. Mark, Rialto), Milan, Naples (Pompeii), Turin, Bologna, Verona, Matera, Sicily, and beyond.

`Roma` `Firenze` `Venezia` `Milano` `Napoli` `Torino` `Palermo` `Matera`

2. Digital Passport & Proof of Visit

Proprietary geocaching verification: checks real GPS proximity to the monument before minting the check-in stamp. Each stamp stores timestamp, coordinates, souvenir photo, and earned XP.

Certificazione Geografica On-Chain	**Livelli da 1 a 10**

3. Audio Guides & Hidden Curiosities

Instant browser-native speech synthesis with one click. Explorers listen to compelling narratives, recommended morning-to-night itineraries, and authentic regional culinary traditions.

4. Historical Quizzes & Active Gamification

Each landmark presents historical knowledge quizzes (architectural orders, Renaissance masters, imperial lore). Correct answers grant bonus XP and unlock cultural prestige.

REAL TRAVEL HUB & ECONOMIC FLYWHEEL

COMMERCE & BUYBACK

Most crypto projects fail because they lack external revenue generation outside speculative trading. **MEETO breaks this dynamic**: our integrated Travel Hub generates real cashflow commissions from leading global travel conglomerates. These revenues sustain a self-reinforcing **economic flywheel**, executing open-market $MEETO buybacks and distributing rewards to active explorers.
